SMALL BUSINESSES:

Take Advantage of the Xcel Energy Community Conservation Program

It's more important than ever to make smart choices to manage your energy costs. A FREE energy audit can help small businesses in the city of La Crosse and Buffalo, Price, Sawyer and Trempealeau counties do just that. An energy auditor will perform a thorough evaluation, offer solutions to reduce your energy use and tell you how you can get incentives from Focus on Energy and matching incentives from Xcel Energy (up to \$5,000) for energy efficiency improvements.

The small business program runs on a two-year cycle. The expiration date to have the audit, complete installation of energy-efficient equipment and apply for incentives is Dec. 31, 2012.

Call 1-800-762-7077 to schedule your FREE energy audit today. (Make sure to mention the Xcel Energy Community Conservation Program offer when calling.)

For more information about Xcel Energy's Community Conservation Program for small businesses, call Patti Darley, program manager, at 715-737-1419.

Incentives are limited, and this offer may be changed, revised or discontinued at any time by Xcel Energy or Focus on Energy. Free energy audit and matching incentives for eligible small business customers only.
